THE STORY OF MODO

PHILOSOPHY

At MODO we are driven by a passion for finding the optimal balance of form and function. Inspired by the precision of architecture, we work with lightness and strength, structure and fluidity. By merging innovative materials, new technologies and purist designs, we offer you unparalleled lightness and lasting quality.

HERITAGE

Born in New York in 1990, MODO is a global brand with offices in New York, Milan and Stockholm. Using the cities we live and work in to shape our collections, we unite the progressive spirit of New York, Italian craftsmanship and Scandinavian minimalism in perfect harmony.

PURPOSE

In 2016, we launched the Buy a Frame - Help a Child See program in collaboration with SEVA Foundation. Today we have helped more than 650 000 children in India to see by offering free vision screenings, prescription glasses and corrective treatments. We are proud to be an eyewear industry leader in social responsibility.

PAPER-THIN ULTRA

Defined by slim silhouettes, innovative screwless hinges and simple constructions, this minimalistic collection of ultra-thin frames combines design and function for beautiful results. Pushing the limits of innovation and comfort, these are some of the lightest optical frames in the world.

LIGHTNESS
IS THE
ULTIMATE
LUXURY.

R 1000 + TITANIUM

Employing memory plastic and utilizing the latest in optical technology, these super-light and super-flexible frames are designed with technical precision and bound together by our innovative screwless hinge, which requires no tightening. Light, durable and adaptable, frames return to their original shape, resulting in an unforgettable technical and aesthetic balance.

IT IS THE
MEMORY THAT
SHAPES YOU.

METAL CORE ACETATE

Unparalleled lightness through inner strength – this collection is defined by enduring shapes and a laser-cut stainless-steel core surrounded by colorful acetate. Style, color, and texture possibilities merge in one of the thinnest acetate collections available.

AT ITS CORE,
STRENGTH IS DEFINED
BY A COMBINATION
OF ENDURANCE AND
REFINEMENT.

BLOCK TITANIUM

Defined by timeless and minimalist designs, this collection combines clean lines with a polished dual coloring technique for a bold appearance. Manufactured from a mono-block titanium material without soldering points, these frames offer an elegant lightweight presence.

THE PRECISION OF
A CRAFT LIES IN THE
BEAUTY OF SINCERE
ATTENTION TO DETAILS.

6527 REDSK

DO YOU REMEMBER LIGHT IN THE MORNING?
HAVE YOU MISSED THE WARMTH ON YOUR SKIN?
WHEN THE DAYS WERE LONGER.
AND, THE SUN STRONGER

DO YOU REMEMBER THE GLOW AND THE SHINE;
THAT FIRST DAY WHEN THE SUN MET YOUR EYES?

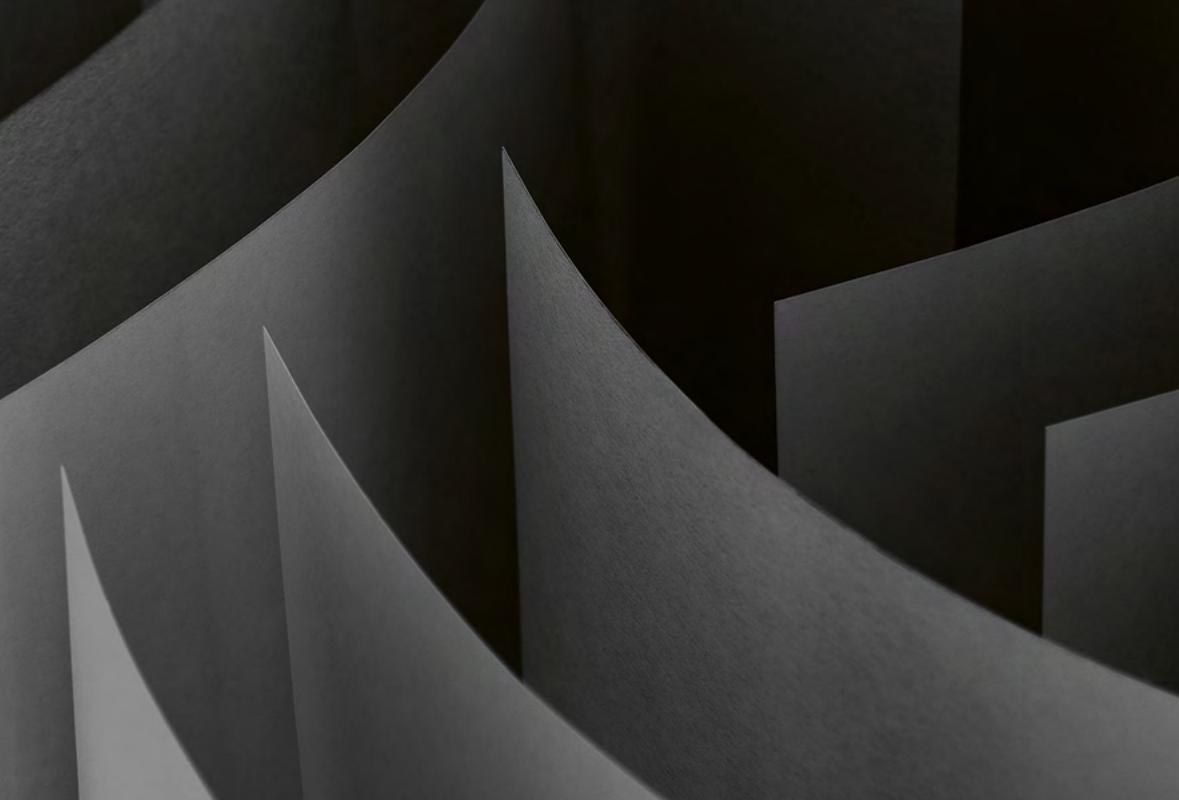

THE SUN IS COMING. THE SUN IS COMING.

SUN

The MODO sun collection uses high-quality materials and the latest production techniques to offer you minimalistic designs and unmistakable lightness. Extraordinary comfort, thin and nearly weightless – all styles have a modern approach to form, function and protection.

All MODO sunglasses are fitted with HCD (High Chromatic Definition) lenses, a unique combination of polarization and anti-reflective coating that offers unsurpassed color clarity and maximum glare reduction, as well as 100% UVA and UVB protection.

PAPER-THIN ULTRA SUN

Slim silhouettes, innovative screwless hinges and simple constructions combine in these ultra-thin frames that push the limits of innovation, function and comfort in some of the lightest sunglasses available.
